

# Basic Needs Financial Supports Catalogue

The **Basic Needs Work Group** of the **Hamilton Best Start Network** identified several resources available to low-income families to help them with their basic needs.

Some of these resources are not well known by the families, yet they provide an opportunity for them to access additional funds. This discovery led to the development of a collection of income supports which is contained in this catalogue.

This invaluable resource offers a variety of easy-access information about benefits, tax credits and local programs which provide some form of financial assistance to those who need it.

Intended to provide a collection of financial resources to help low-income families access and apply for provincial and federal income support, this catalogue enables them to take advantage of programs that have been established to be of great benefit to them.

The Hamilton Best Start Network is committed to providing up-to-date information. The printed catalogue will be reviewed annually while an online resource is updated more frequently.

The Financial Supports Catalogue is based on the following criteria:

- ✓ Income supports connected to basic needs
- ✓ For children and families; 18 years and younger

To aid readers, this Catalogue is organized according to the categories of basic needs listed in the table of contents to the right.

**Legend:**
