## **High School Co-operative Education Placement Description**

|   |  | completing placement  The intent of co-op placements is to provide students interested in careers in healthcare with an opportunity to learn about a wide variety of careers and therefore are not intended to replace |  |  |
|---|--|--|--|--|
|   |  | staff.   |  |  |
| Learning Map (Subject to change throughout placement)   |  |  |  |  |
| Week 1 – Orientation:   |  |  |  |  |
| - Reviewing good clinical practice regulations and receive certification to work in research. Our student will also review our standard operating procedures for the areas they will be working in. |  |  |  |  |
| Week 2 to end of term:  |  |  |  |  |
| - This will be a chance to become more hands on. Our student will be given more responsibility with data entry,   |  |  |  |  |
| administrative tasks in the office, and accompanying study team members on patient visits. This will be a well-   |  |  |  |  |
| rounded view of research in nephrology.   |  |  |  |  |
| Final Week of Placement:  |  |  |  |  |
| - We will take this time to review what the student has learned in the time at our hospital. This will be   |  |  |  |  |
| presented to the study team and the student can share their experiences working in research.  |  |  |  |  |
