

## ***Out-of-province Insurance***

- We've had a few phone calls about the out-of-province insurance. Our apologies if this information was not made more clear. During the parent information night, the Perspectives tour company indicated that out-of-province insurance was mandatory for the Ottawa trip. Because a few of the activities on the itinerary take place in the Province of Quebec, this insurance is necessary.

- For those of you who purchased this insurance through Perspectives, you are covered and don't need to do a thing. If you did not get this insurance through Perspectives, insurance can be purchased at a number of places (for example CAA) or you may already have coverage through your work. If you did not purchase insurance through Perspectives, please send proof of out-of-province insurance with your final payment for the trip. Again, the trip dates are May 18-20 and the insurance needs to cover all three days
