

Parents Reaching Out (PRO) Grant Writing Workshops

Let us help your school receive funds for parent engagement!

Parents Reaching Out (PRO) grants support school-based initiatives that engage parents who may face barriers to involvement such as language, immigration, poverty or other factors. (Ontario Ministry of Education).

We're here to help!

HWDSB and its Parent Involvement Committee are providing **free workshops** to help School Councils write successful PRO grant applications.

In these workshops, you will learn:

- How to register and apply online (iPads available)
- About applications that were successful in the past
- Helpful hints to increase your chances of having your grant approved
- Ways to enhance your existing ideas
