

Highland Smoking Policy

Highland is a smoke-free environment.

Research indicates that smoking is bad for your health. As well, second hand smoke is bad for the health of others. To support the health issue, the Ontario government has banned smoking anywhere on school property.

Therefore, you are not permitted to smoke in the school building, on school property or in a school bus.

Consequences

If you smoke on school property, you face suspension from school and fines from the Ontario Ministry of Health.
