NOTES: Students should check calendars for up-to-date requirements and Websites may provide updates. Info magazine may not have full details. MHF should be taken as a first math credit for most programmes. MCV is required or recommended for most Math, Comp Sci, and Engineering programmes. MDM is accepted in many programmes, especially in Business and Social Sciences, but may fall outside the requirements in others, though still accepted as a credit. Math, Science and Computer Science programmes listed are through the BMath, BSc or BCS (not BA) streams. Three-year degree programs may have fewer requirements.

Special note regarding MCV 4U: Many universities indicate MCV as an admission requirement without listing MHF as a requirement. They have indicated that MHF must be successfully completed, but does not need to be included in the "best 6" average, whereas marks from MCV will be included.
