

Hi Jim,

Please make sure the West ARC receives this email from a Beverly Central family in Flamborough. Thanks, Karen

Hi Karen, I am a concern parent from Flamborough. I have 3 children from the ages of 6 to 11. All that I thought would go to high school in the community that we are a big part of. My husband and I met in high school in Dundas and many of our friends, who we are still friends with today. We are not opposed to a new school. We would be excited for our children and all the opportunity that a new school would bring. Our children have been playing all their sports in Dundas for many years, since we were building a foundation for them. Also we had to follow the guide lines and boundaries with their sports, which put them in Dundas. We do not want to see any boundary changes for our children. Our children would like to go to high school where they know the town and the people.

I do sit on the Beverly Parent council and I am a bus driver. I choose to be a bus driver to be with my children and to know the children and parents of our community. Since I am a lucky mom who can stay home with my children. I am a big part of my community out here and in Dundas, since my husband coaches our son in rep hockey and our son plays rep soccer there. And our daughters play soccer in Dundas. I do not believe that our parents want anymore then a great opportunity for our children to have a beautiful new school, that is clean and safe. With all the new technology and opportunities that new schools bring.

The high school years are very trying years. This is the time that we mould our children and guide them down a path of who they will be. Having our children from Flambrough up routed from the town they know and thought they were going to, would be a crime. Children need stability and to be surround by people they know. That is what Dundas would give them.

I hope when it comes time to vote you will support a new school of 1250 and plan for **no boundary changes**. And give the other trustees our thoughts. Since these are our children and our community.

I truly appreciate all the ARC has done, since I do believe they have taken all the facts and will come to a great conclusion.

Sincerely The DiSalvo Family!
