

## **Celebrating Excellence beyond HWDSB**

Hamilton-Wentworth District School Board is committed to celebrating the excellence of one of its greatest assets – its staff. Through the Profiling Excellence Program, many programs and departments now have the opportunity to showcase their outstanding achievements. Now, individual staff who have received recognition from external agencies can be recognized through the Profiling Excellence program.

Profiling Excellence is pleased to give individuals the opportunity to celebrate their work or achievements. Whether professional or personal, individuals, groups or departments are eligible for this special recognition for making a positive contribution or making a difference to others. External recognition must have taken place from September 2004 onwards. Recipients' work will be celebrated in the following ways:

- ❖ Board Meeting recognition
- ❖ Written acknowledgement from Director, S.O.E., Chair (letter) with copies to associated principal, employee association, applicable parent council
- ❖ Certificate
- ❖ Feature story on website and in Blackboard

If you know of an individual or group that has been externally recognized for making a positive contribution, let's celebrate their achievement by nominating them for Profiling Excellence recognition.

Forward nominations to: [Sue Phillips](#), Corporate Communications

Together We're Better!
