**It's your responsibility...**

Parents and students should work together to find the right Community Involvement opportunity. So start early and become actively involved in this process!

**GETTING STARTED****Step One****Planning Your Community Involvement Activities**

When *planning* your Community Involvement activities, you must be careful to choose approved activities that can be performed in a safe environment. It is important that you think about the following elements:

- ✓ your age
- ✓ your health
- ✓ your interests
- ✓ immunization requirements of an activity
- ✓ health and safety training
- ✓ the presence of hazardous materials
- ✓ the risk of harassment
- ✓ the need for a police check for specific activities
- ✓ the availability of guidance and clear instructions

Brainstorm with friends and family members. Make a *list* of activities that interest you and discuss them with people whose judgment you trust to decide whether potential risks or requirements for those activities are acceptable.

**Step Two****Notification of Planned Activities**

You should notify your guidance counsellor of any activities you plan to complete. Your school *may* require you to fill out a form to

- ✓ indicate the planned activities
- ✓ obtain the required signatures
- ✓ return form to the school

The *principal's permission* is required if the activity does not meet the criteria for Eligible Activities on panel - 3 - .

**Step Three****Supervision and Reporting**

When you have completed your activities, you may be required to fill out another form in your school. Your school may request a letter from Activity Supervisor. The letter should describe the activity, the dates, hours completed, and the name and title of the supervisor. Check with guidance to find out whether they have a form or prefer a letter.

**ROLES AND RESPONSIBILITIES****...OF SCHOOL BOARDS...**

- to share information with students, parents and the broader community
- to develop a list of approved activities
- to develop appropriate forms and /or processes for collecting and storing personal information

**...OF SECONDARY SCHOOL PRINCIPALS...**

- to provide information about the community involvement requirements to parents, students and other stakeholders
- to ensure that students have the necessary information and forms they will need to complete the community involvement requirement
- upon graduation, to decide whether the student has met the community involvement requirements

**...OF STUDENTS...**

- to select an activity or activities that meet the criteria for eligible activities
- to obtain approval if the activity is not on the list of eligible activities
- to complete any forms and/or obtain any letters required by the school

**...OF PARENTS...**

- to provide any assistance to their child in the selection of his/her community involvement activities
- to communicate with the community sponsor and school representative if they have any questions or concerns
- to sign all the necessary forms if the student is under eighteen years of age

**ELIGIBLE ACTIVITIES**

The following guiding principles, in conjunction with the list of the ineligible activities, are intended to assist students and parents or guardians to determine whether a planned activity is within an approved area\* for the completion of the Community Involvement requirement.

- ✓ An event or activity to support a not-for-profit agency, institution or foundation that conforms to the ethical standards of the Board and the Ministry of Education.

**INELIGIBLE ACTIVITIES**

The Ministry of Education and Training has developed a list of activities that may **not** be chosen as community involvement activities and that are therefore **Ineligible Activities**. The following defines Ineligible Activities.

- An activity that is a requirement of a class or course in which the student is enrolled (e.g., co-operative education portion of a course, job shadow, work experience).
- Any activity that takes place during regular class time on a school day. However, an activity that takes place during lunch breaks or a "spare" period is permissible.
- Activity that takes place in a logging or mining environment, if the student is under sixteen years of age.
- Activity that takes place in a factory, if the student is under fifteen years of age.
- If the activity takes place in a workplace other than a factory, if the student is under fourteen years of age and is not accompanied by an adult.
- Any activity that would normally be performed for wages by a person in the work place.
- Participation in an activity that involves the operation of a vehicle, power tools, or scaffolding.
- Activity that involves the administration of any type or form of medication or medical procedure to other persons.
- An activity that involves handling of substances classed as "designated substances" under the Occupational Health and Safety Act.

- An activity that requires the knowledge of a trades person whose trade is regulated by the provincial government.
- Activity that involves banking or the handling of securities, or the handling of jewelry, works of art, antiques or other valuables.
- Any activity that consists of duties normally performed in the home (i.e., daily chores) or personal recreation activities.
- Activity that involves a court-ordered program (e.g., community-service program for young offenders, probationary program).

**INSURANCE**

- Students and parents are encouraged to purchase Student Accident Insurance. The application forms are available through the schools.
- Boards expect that all community sponsors will provide students with appropriate instructions, put in place safety precautions, and train and supervise student volunteers.

The Hamilton-Wentworth District School Board is pleased to advise its community sponsors that students who are performing volunteer work for organizations are protected by the school board's liability insurance, while they are performing their required forty hours of Community Involvement. Community sponsors are also protected by the board's liability insurance for claims that arise out of our students' volunteer activities for organizations.

For example, if a student, in the course of his/her volunteer duties, causes damage or injures a third party, and this results in a lawsuit against the student and the community sponsor, the board's insurance will protect both the student and the community sponsor.

Community sponsors will be responsible for ensuring that their liability insurance will protect them for the involvement in this program. As with other programs, such as "Take Our Kids to Work", the school board's insurance does not provide coverage for the negligence of the community sponsors.

Community sponsors also should be aware that in the event of personal injury students do not have accident insurance nor Workplace Safety Insurance Board coverage through the school board. **It is recommended that students involved in the program purchase, at their own cost, student accident insurance available through enrolment forms distributed by the school each September.** The school board expects the community sponsors to ensure that student volunteers are provided with safety instructions, and are trained and supervised to ensure a safe and mutually beneficial volunteer experience.
