January 24, 2018

Dear Parents, Guardians, and Caregivers,

As you may be aware, we have had some water damage issues due to a leak in our roof. I wanted to update you on what is being done to rectify this problem.

As soon as school staff was aware of the issue, we contacted our Facilities Department staff. We know the leak was caused by ice/snow accumulation and recent heavy rains. As student safety is always our priority, HWDSB staff and contractors came to our school to assess the issue at once.

Upon investigation, it has been found that there is no risk to students while in this section of the school. Contractors have already started the repairs; however, they need warmer temperatures to ensure the tar/concrete stick to the surface. Our contractors have assured us that they will finish this work over the next few days, as we are expected to have warmer weather.

I would like to thank you for your understanding and patience as we continue to address our roofing situation. We value keeping your child safe, while providing a quality education in a safe and clean school environment.

If you have any questions, please contact the main office.

Sincerely,

Randy Gallant
Principal
