

# Poinsettia Fundraising

*A True Holiday Tradition*

*Where colour lives!*

## How to care for your Poinsettia

- TERRA's Poinsettias are grown by TERRA and are of superior quality.
- Poinsettias like indirect sunlight
- Poinsettias do not like to sit in water. When you water your plant you should remove the pot cover and let them drain.
- Poinsettias don't like drafts. Keep them away from the front door, heat vents, and ceiling fans.
- Poinsettias must be protected from the outdoors. Ensure that they are covered when transporting them.
- You don't need to fertilize your Poinsettia

### Did you Know...

Poinsettias are not poisonous!  
They are not intended for human/  
animal consumption, but a person/  
animal would have to eat over their  
body weight in the plant for it  
to be dangerous.
