The diagram illustrates the paper recycling process. At the top, the title "PAPER RECYCLING" is displayed in large, bold, black letters. Below the title, four images show acceptable items for recycling: a stack of papers, a stack of cardboard boxes, a stack of papers, and a stack of papers. Each image has a green checkmark in the bottom-left corner. These items are shown falling into a blue recycling bin with a white recycling symbol. To the right of the bin, a white box contains the text "Clean paper and cardboard ONLY". Below the bin, a horizontal line separates the acceptable items from the unacceptable ones. Four images show items that are not accepted: a crumpled paper towel, wet paper, food packaging, and a bowl of food. Each image has a large red X mark over it. Below these images, the text "NO Paper towel NO wet paper NO food packaging" is written in a green, cursive font.

Due to the extreme cold we will be limiting our time outdoors today. Staff who may be taking classes outside for DPA are asked to please check the temperatures before heading out. -15 without windchill and -20 with windchill are our markers from Public Health for limiting time outdoors. When outside, please be sure you are dressed for the conditions. Hats, mitts, boots, coats and snow pants will help to make your time outside more enjoyable.

We anticipate being indoors for first NB at a minimum today. Students are reminded that personal electronic devices are not among the choices for quiet indoor activities. Please remember also, if you are not seated at your desk eating, your mask does need to be on.
