

## Bellmoore Elementary School - Term 1 Report Cards

### Term 1 Report Cards will be send home through Messenger on February 19<sup>th</sup>.

It is quickly approaching the time for report cards to be coming home – **February 19<sup>th</sup> through School Messenger** (no paper copy at this time). Our students have been learning online and in-class this Term and your classroom teacher has been gathering observations, conversations, and student products to share specific examples of what your child has done to demonstrate their strengths, as a learner.

It is an important time, in your households, to review the Report Card together. It is the half way point in a school year and a great opportunity to recognize and celebrate the accomplishments of your child. It is also the time to set a goal together, where improvement can be obtained, knowing that your child has the support of the classroom teacher and their family.

One change that you will see on your child's 2021 report card is in the mathematics section. As you know, The Ministry of Education released a new Mathematics Curriculum this year. Your child's teacher has been utilizing this new document to guide the mathematics lessons taking place in class. One of the changes this new curriculum introduces is a more cohesive approach to assessing mathematics. Previously, students would receive a separate grade on each of the five strands/categories covered in class on their February and June report cards. The new policy introduces a single grade to reflect the overall learning of the student in mathematics.

If you would like to learn more about the new mathematics curriculum, this resource contains more details on the changes to how mathematics is being taught and assessed in your child's classroom.
