

1. Newsletter and/or Website Promo

Looking for the perfect **STEM learning opportunity** this Fall?

Mathstronauts is proud to announce that the **STEAM Engine Program** is back for its 6th year! In this 10-week virtual program, students will learn how to code, make 3D models and do graphic design to make their own Mars animations. All sessions will take place virtually, from the comfort of their home, with live instructors and teaching assistants.

Learn more about the program in the brochure provided or watch our program video! Register online via the registration portal link by October 16, 2022. Spots are limited, register early!

- **When:** Starts week of Oct 17 (once a week for 10 weeks)
- **Where:** ONLINE (Eastern Daylight Time)
- **Fees:** \$125.00 CAD for 10 weeks
- **Program video:** <https://youtu.be/VS0SRXeOis0>
- **Registration Portal:** www.mathstronauts.ca/register
