

DISCOVERY LAB

THURSDAYS FROM 3:40-4:40
HELD AT BELLMOORE PUBLIC SCHOOL FOR SEVEN WEEKS
November 10th - December 22nd

"I just wanted to thank you for giving my children the wonderful "Mad Science" experience. Each week they came home excited and proud of what they had learned and demonstrated their new "science" knowledge. Yesterday they both pulled out their achievement certificates and put them on the fridge - very proudly. Thank you!"

- Karen - Brantford

REGISTER BY OCTOBER 27th, 2022 AND RECEIVE \$10.00 OFF

Registration Information

Policies: By registering your child, you acknowledge that you have read and agree to the policies found on our website.

Reminder: Announcements will be made at the beginning of each class to remind all registered children to attend the Mad Science program. We suggest to write a reminder in your child's daily planner to let their classroom teacher know your child is registered.

Program Cost: \$130. Register by Thursday October 27th and pay only \$120.

Payment Information: All Major Credit Cards Accepted. Please call the Mad Science office if you prefer a different method of payment.

Questions: Please direct all questions to the Mad Science office rather than your school office.

Behaviour Expectations: We are committed to offering a quality program for every child registered in Mad Science. Your child should be able to interact safely and appropriately with the Presenter, the other children in the class, and the equipment in both group and individual activities. While we make every effort to assist each child in having a great experience, children who display behaviour not within these guidelines may be withdrawn.

Program Details: This fun, safe and interactive course is suitable for JK/SK students. Your children will be working with our professional, trained Presenters. Each class is filled with dynamic demonstrations, tons of hands-on activities and weekly take-homes! If the program is happening during lunch or nutrition break, your child will eat during the first part of class.

Mad Science of Hamilton & Kitchener

Madsciencehk

The 7 Awesome Topics For This Session Are:

Human Body - Bone up on your science with this class about anatomy. Look at the fascinating complex structure that allows us to move.

Space Frontiers - A class trip through the solar system! Sign up for the "Mad Science Space Mission" as we investigate the cosmos.

Keep in Touch - Challenged to identify objects using only touch, children will love learning about another of their five senses.

Digging for Dinosaurs - Discover which dinosaurs are meat eaters and which are plant eaters and participate in a dinosaur dig.

Magnetic Attraction - Explore the power of magnets and polarity. Put common objects to the magnetic test.

Weather Wonders - Investigate water cycles, weather patterns and how wind can move objects.

Adventures in Air – Even though air is invisible, it can do amazing things! Children will test to see how much air pressure is needed to make things move.

Extend your child's learning experience with a week of
