Dear Parents/Guardians:

RE: Prevalent/Non-Prevalent Medical Conditions

As you know, health and safety of our staff and students is a top priority for us at Bellmoore. The purpose of this letter is to encourage families of students with non-prevalent and prevalent medical conditions to communicate with the school in order to create a plan of care, if necessary.

Prevalent Medical Conditions

Asthma
Diabetes
Epilepsy
Anaphylaxis

If your child has one or more of the listed prevalent medical conditions, experiencing similar symptoms, and/or **is being tested** for a life-threatening condition, please contact the main office immediately. An **emergency response plan of care** will be put in place to support the health and safety of your child.

Non-Prevalent Medical Conditions

In some cases, students may require a plan of care to be put into place for conditions that are not one of the above listed prevalent conditions. Please contact the main office for support on determining if a plan of care needs to be implemented.

Please don't hesitate to contact the school for further questions and/or information. Thank you for your attention to this important matter.

Sincerely,

Suzana Milinovich
Principal
