RETURN TO SCHOOL MEANS RETURN TO SAFETY

Monday, February 8, 2021 marks the return to in-person learning. It has been almost two full months since HWDSB students and staff have been in school buildings.

With all that time away, it can be easy to forget some of the public health measures and board protocols that have been put in place to help stop the spread of COVID-19. We have also seen new efforts put in place and pre-existing ones be adapted during this remote learning period.

In order to return to schools as safely as possible, students and families are asked to review the following topics before they return and during the first two weeks back in school.

Please be sure to also visit our [COVID-19 webpage](#) and [Guidance for Families](#) for more important information.
