Grade 7 and 8 – New Mental Health Literacy Modules

Students in grades 7 and 8 are participating in a series of mental health literacy modules from [School Mental Health Ontario](http://www.schsmho.org) (SMHO). This learning is based on the Ontario Health and Physical Education curriculum. These modules have been made mandatory so that every student has access to reliable and research-based information about mental health that is relevant for the adolescent years. Developing skills and habits that promote well-being and learning about common mental health problems and how to access support when needed, can help students to care for their mental health and may help to prevent future mental health problems.
