EQAO - Grade 3 and Grade 6

June 3-7

The purpose of EQAO is to ensure that there is accountability between school boards and schools in the publicly funded system in Ontario. Educational accountability is important to three key stakeholders: taxpayers, elected officials, and teachers. By providing these yearly standardized tests, the Ministry of Education aims to increase the quality of education in Ontario, while also using the tests to make plans for future improvement.

EQAO tests:

- measure students' cumulative knowledge and skills in relation to a provincial standard
- are given at key stages of students' education
- are administered, scored and reported on in a consistent and objective manner and
- provide results that are comparable across the school, board, and province from year to year

For additional information regarding EQAO parent(s)/guardian(s) are welcome to visit www.eqao.com

Health Education

At Dr. Davey, Human Development and Sexual Health will be taught during the window of June 3-17. Please see the guide for information.
