

To all Parents and Guardians:

On behalf of our Ward 1 City Councillor, Maureen Wilson, the Earl Kitchener School Council is encouraging all parents to review and add to the *Strathcona and Kirkendall Complete Streets Safety Report* for the purpose of identifying places in our neighbourhood to introduce traffic calming and safety measures for all road users. We know all students, parents and caregivers would benefit from seeing improved road safety measures, particularly within their route to school.

The project website has a unique and interactive map to make it easy for participants to place 'pins' on intersections and segments of road where they have personally identified issues or where they think improvements can be made.

**Please look at what issues your neighbours have identified and add your own by December 15, 2024:**

Thank you,

Earl Kitchener School Council
