The information in PowerSchool, the regular registration system for each student's home school, will share additional necessary information with the Summer Learning Administrator, Coordinators, Site Leads and Teachers so that we may provide a safe and personalized experience for your child.

To inform our teaching and the impact of learning, staff will be assessing students through diagnostics, post-assessment and observations of literacy/numeracy skills.

Summer Learning staff will help parents to stay connected through parent engagement and learning events, along with emails about your child's learning. Photos and videos of the learning program will be captured and shared with Trustees, Superintendents and funding providers of this incredible learning opportunity.
