Dress for Cooler Weather

With the cooler weather fast approaching, students are reminded to dress in more layers of clothing to suit the weather conditions. Warmer jackets, coats, hats, mittens, and boots (rain or snow) will be needed to stay warm during our colder days to enjoy outdoor nutrition breaks and Daily Physical Activity outside. Our students use field areas during nutrition break. In the next few months our field will be damp throughout the day. We want to have students outside on the field as much as possible in their classroom cohorts, so please pack a pair of rain boots or outdoor shoes for your child to enjoy the field. Days when we are unable to access the field, staff will find other times in the day where students can move around on our blacktop areas to receive some fresh air and outdoor exercise.

Lockers and Cubbies will re-open for students in November to help with the storage of clothing and boots. Students must bring all of their belongings home each day from school. Students should not leave boots or other clothing items at school as this interferes with evening cleaning of the halls and classrooms. Thank you for your support here!
