November 2, 2021

Dear Parents/Caregivers

There will be additional fencing added along the Queen street side of our playground. This fencing is being added to the playground to add additional safety for our students. Students will not easily be able to access Queen Street or Cannon Street West and will reduce pedestrian traffic using the playground as a through fair.

This area isn't a designated walkway and students/parents/caregivers should use city sidewalks to access the playground area from Hess Street. These areas are maintained (such as snow clearing) throughout the year.

If you have any questions please contact Hess Street School office.
