

HIGHVIEW OPEN HOUSE

Thursday May 4th 5pm – 6:30pm

Join us for Mad Science events in the gym, face painting by our Grade 8 students, and class room visits to see your children's learning space. Curbside Foods and Domino's will also be selling food on the playground.

(We kindly remind families that students must be supervised by parents/guardians while attending the Open House and that teachers will not be available for interviews during this time.)

Cash will be accepted to order Highview 2022-23 Yearbooks – just \$20 each and available to all students!

Interested in volunteering at Highview? Pick up an information package at the Open House and start the application process.

(Please see reverse side for Mad Science details)

School Council is proud to announce that we received a \$1000.00 PRO Grant from HWDSB's PIC Committee. With this money we are pleased to bring in Mad Science during our Open House. Join us in the gym to learn and partake in a number of fun STEM activities.

Dry Ice...Sooo Cool! Come on by the Dry Ice Table and see how we make our most famous scientific potions, like Eggbert's Bathtub and the Big Burp. It's all about sublimation! Make your own fake snow to take home!

Super Balls...Sooo Bouncy! Catch that bouncing polymer! Fill a mold with tiny polymer crystals, give it a bath, a rest and a massage and then take it out to play! But don't let it get away...polymers are known to bounce.

UV Bead Key Chains...Sooo Smart! Don't let those big clouds fool you...our sun is super strong and its harmful UV rays can pierce right through the clouds. Be sun smart with this cool UV Detector and know just when to apply sun screen!
