

Registration Information

Policies: By registering your child, you acknowledge that you have read and agree to the policies found on our website.

Reminder: Announcements will be made at the beginning of each class to remind all registered children to attend the Imagine Arts Academy program. We suggest to write a reminder in your child's daily planner to let their classroom teacher know your child is registered.

Program Cost: \$106 + HST Register before Wednesday October 16th and receive \$10.00 off

Payment Information: All Major Credit Cards Accepted. Please call the Mad Science office if you prefer a different method of payment.

Questions: Please direct all questions to the Mad Science office rather than your school office.

Behaviour Expectations: We are committed to offering a quality program for every child registered in Imagine Arts Academy. Your child should be able to interact safely and appropriately with the Presenter, the other children in the class, and the equipment in both group and individual activities. While we make every effort to assist each child in having a great experience, children who display behaviour not within these guidelines may be withdrawn.

Program Details: This fun, safe and interactive course is suitable for grade 1-6 students. Your children will be working with our professional, trained Presenters. Each class is filled with new and exciting art techniques, tons of hands-on activities and take-homes! If the program is happening during lunch or nutrition break, your child will eat during the first part of class.

Mad Science of Hamilton & Kitchener

Madsciencehk

The 8 Awesome Topics For This Session Are:

COMIC BOOK HEROES We're dressing up our very own superhero! Superheroes look their best when drawn in action poses, with faces that tell their story. We have superhero templates and fashion textiles to kick-start the ultimate comic book star!

FUTUREVILLE We're designing a city of the future! How will we handle the traffic flow of all those who work and live in the city? Our mission is to create a pop-up vision of a future metropolis whose citizens get around safely on foot, on wheels, and in flight!

GAME ON! We are diving into board game design! Our mission is to create a board game that teaches players about the wonders of ocean life. We'll design the game board, cards and pieces, and then challenge each other to play!

MARS HABITAT Our mission is to design a habitat for a Martian colony. We will explore architectural design to imagine a practical home for people living on Mars. Then, we'll sculpt our designs to create our own 3-D models.

PICTURE PERFECT Hooray for Hollywood! We have been challenged to create a poster to promote a movie. We will learn the elements of graphic design to create exciting, eye-catching posters.

PITCH YOUR PRODUCT Anyone, at any age can be a business entrepreneur! We're learning how to turn an idea into a retail product. Let's design and build a prototype of the perfect tool that everybody needs.

UNIVERSAL TREEHOUSE We're making the rainforest our home for a year! We'll be designing a treehouse where three scientists will live and work. The mission involves making our treehouse animal-proof and universally accessible for researchers of all abilities!

WILD ANIMATION Let's travel into the woods! We'll design a storyboard to spread the word about protecting this cool ecosystem! We'll also make a flipbook to see how film animators connect images to create moving pictures.
