November 28, 2017

Dear Parents, Guardians and Caregivers

As you are aware, our school recently underwent water testing for lead, in accordance with the provincial regulations (O.Reg 243/07). I updated you last week that after further testing, we were bringing 9 drinking water fixtures back into service.

More test results have come in and I'm pleased to let you know that we are able to bring back into service another four drinking water fixtures.

HWDSB staff are still awaiting test results for the remaining fixtures at the school. Our Health & Safety representatives are continuing to consult with Public Health and as more test results are received, I will continue to provide you with updates.

We will continue to offer bottled water through the use of water coolers. Students are still encouraged to bring a water bottle so they can refill their bottles as needed.

For more information and if you have any questions, please contact me at 905.383.3337.

Thank you,

Greg Clark  
Principal
