

Parents, prospective students, community partners and guidance counsellors are invited to hear from current students and graduates of the program.

Career Pathways is a one year program that provides a supportive and empowering postsecondary pathway for students who may not have otherwise considered higher education for a variety of reasons.

These reasons may include but are not limited to challenges with a traditional learning environment, alternate learning styles, or learning disabilities.

The Career Pathways program focuses on preparing graduates for both career and educational opportunities by developing personal, social, academic and career related strengths and skills.

Saturday March 30, 2019 (During Open House)

12:30pm – 1:30pm

[Mohawk College, Fennell Campus](#)

135 Fennell Ave. West

Room E005
