

Power Start: Electrical & Renewable Resource Trades Introductory Training Program

Mohawk College is pleased to partner with the Sectoral Workforce Solutions Program and Electricity Human Resources Canada to offer a fully-funded **10-week introductory program** to careers in the Electrical Sector.

Program highlights:

- Shop safety and tool familiarization
- Workplace safety—WHIMS, Lock Out/Tag Out, First Aid & CPR
- Electrical trade practices
- Electrical installation methods
- Electrified energy systems including hybrid/electric vehicles, residential/commercial car chargers, green buildings, renewable energies, power engineering
- Careers in the electrical sector
- Support in securing a work placement*

Benefits:

- Develop confidence, exposure and skills
- Provides specific skills that employers are looking for in potential apprenticeship candidates
- Prepare for future trades training

*Support in securing work placement is provided by Community Employment Services/Employment Ontario. Mohawk College reserves the right to limit, cancel or adjust admission requirements, programs, courses or classes without notice should circumstances so require.
