

From the Principal's Desk....

Now that we are well into the month of February, we have officially wrapped up Term 1 for this school year with student achievement from September being communicated through the first term Report Card. Student reports will be sent home with our students on Friday February 17th. Please review your child's report together and complete the Parent feedback/communication page that provides you with an opportunity to identify growth/set goals and next steps together for the remainder of this school year. Once completed, please send the form back to school with your child to help build upon the home-school connection. We thank you for the support you provide your child each & every day, which contributes to their learning & growth at Mount Hope!

The start to 2023 provided our students with more opportunities to express their interest for our Spirit Days. Student council gathered student voice for Movie day preferences within each division and ending the week with Movie Pajama day on a cold Friday in February. Our student council is actively engaged in generating ideas on how to bring spirit to school days and we always look forward to what will be coming next! A big thank you to our teachers that lead & guide our council who meets regularly during Nutrition breaks to share ideas and plan fun days at Mount Hope!

We had a special visitor this past week, who enjoyed her tour led by our Student council reps. Our Director, Ms. Robinson-Petrazzini enjoyed her tour of the school visiting classrooms and seeing our extensive playground and field area that students enjoy outdoors. It was a pleasure to welcome her to Mount Hope!

Our School Council continues to collaborate and support Mount Hope by promoting the volunteer process with a letter being shared with all of our families very soon. If you have time available during the week, and would like to support school life at Mount Hope, please rely on the information provided in the letter to support the next steps that are required to become an active volunteer with us! We welcome your support and know that Council is always looking for volunteers when planning school events. Thanks to Council's ongoing support in leading our school fundraisers along with the contributions for all our families, the success of our chocolate fundraiser will enable us to purchase a sound system at Mount Hope! This system will support our Physical Education and Dance programming, along with all school events that require audio and visual technology! We could not have made this happen without the support from Council and our families during our fundraising events. Thank you very much!

As we approach the upcoming holiday long weekend, we wish you all a safe & enjoyable Family Day on Monday February 20th with students returning back to school on Tuesday February 21st.

Sincerely, Ms. Radojevic & the Mount Hope School Team
