

DISCOVER THE PASSION • FEEL THE ENERGY • BE INSPIRED

# FIRST Robotics Competition at McMaster University

Join us on March 21 & 22 at David Braley Athletic Centre  
Paid parking on campus

## WHAT TO EXPECT:

### High-intensity robo sports

Be amazed by teams' builds of 5-foot, 140-pound robots, from scratch, demonstrating agility, speed and accuracy in a fast-paced competition environment.

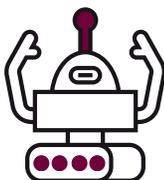

### Open to the community

All are welcome to drop in throughout this **free** event. Bring your class, family or community group to experience the energy and innovation of this STEM event.

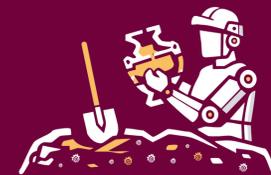

### Engage with teams and their robots

Take in the competition atmosphere or connect with teams to learn about their robots, strategies and design work. Whether you're curious about engineering, creativity, teamwork or innovation, FIRST Robotics Canada has a place for everyone!
