

# Secondary School Vaccine Catch Up Clinics

## Students: Do you need your vaccines updated?

Letters are being sent out to let you and/or your parent(s)/guardian(s) know if your vaccine record is not up to date with Hamilton Public Health Services. Childhood vaccine records, or an appropriate exemption, must be provided to your local public health unit as part of the Immunization of School Pupils Act (ISPA).

## Where can I get my vaccines?

See your family health care provider or attend the vaccine clinic at your school.
