

Help us grow our Kindergarten Outdoor Learning Space

Our Kindergarten students love to explore, build, climb and imagine. We want to give them an outdoor space that inspires all of that and more! We are hoping to create a natural, woodsy play area filled with logs, stumps, plants and other natural materials that encourage creativity, movement, and connections with nature.

We're looking for donations of natural materials or outdoor items such as:

(We are looking to focus on natural, wood materials- no plastic!)

- tree stumps or logs (for sitting or balancing)
- wooden planks or rounds
- small shrubs or plants
- smooth rocks or boulders
- outdoor storage baskets, bins and milk crates
- large flower pots
- gardening tools
- soil, mulch and sand
- kitchen pots and pans
- adult size rakes (we will cut them down)
- Large sheets of burlap
- child size wheel barrows
- Home Depot gift card

If you, your family, or your business can help, whether through materials or connections, we would love to hear from you! Together, we can create a beautiful natural play space where our kindergartens can explore, imagine, and grow.

Thank you for helping bring our vision to life for our Kindergarten studentsg.
