

## **Problem of the Week**

### **How does it work?**

- 1) Students can subscribe to, take a picture of or download the problem of the week.
- 2) Students can provide an answer alone or with a group. Make sure you show all your thinking!
- 3) All answers will be posted the following week so we can learn from each other. Students can print their name(s) and class on the front or back of their answer.
- 4) Submit answers by the end of Wednesday.
- 5) All answers submitted are eligible to win a “fabulous prize.”

***Good luck Rams!***
