Golf Canada would be happy to speak with you further about how you can continue to bring your students to facilities to learn more about the game of golf. Through our Future Links driven by Acura Get Linked program, we have funding available that would allow your school to work with local Future Links facilities through field trips and/or in school visits by golf professsionals. Please contact Nathalie Mihalek, Coordinator, Grow the Game at nmihalek@golfcanada.ca for more information.
