At SAGE QUEST (SQ), students create and experience a unique and innovative specialized learning program. As a system program, SQ is best suited to students who are:

- Motivated, self-directed learners, capable of working independently, monitoring their progress, and completing work in a timely manner.
- Willing to collaborate with others, academically and socially, and committed to building respectful, authentic classroom relationships.
- Positive and cooperative participants in all curriculum areas, including visual arts, drama, music, physical education, outdoor education, and science.
- Eager to engage in critical thinking and community action on environmental, global, and local community issues
- Able to support the program by attending regularly and punctually, and striving for academic success.

The SQ program at Hamilton-Wentworth District School Board (HWDSB) is open to all students in grades 6-8 who demonstrate initiative, curiosity, collaboration and an interest in global issues. Students at SQ come from across the city and represent a variety of learners. Like all HWDSB schools, SQ teaches the Ontario Elementary curriculum.

SQ staff will review all *Notice of Intent* to ensure students demonstrate the learning skills that will lead to success in the program. We will ask suitable students to complete an application. Acceptance is based on a student's learning profile, not their academic achievement.

To enroll your child in SAGE QUEST, submit this notice by email to ryerson@hwdsb.on.ca with a Term 1, February 2021 Report Card by Friday, March 12, 2021. *We will not consider a notice without a report card unless the student is homeschooled. We will contact families about next steps by April 1, 2021.
