

You are cordially invited to...

THE ONYX BALL

The Harlem Renaissance

The Harlem Renaissance was a significant intellectual and cultural movement that revitalized African-American music, dance, art, fashion, literature, theater, politics, and scholarship. This revival was concentrated in Harlem, Manhattan, New York throughout the 1920s and 1930s. The movement emerged from a renewed commitment to civil rights alongside the great migration of African-American workers escaping the oppressive conditions of the Jim Crow South, with Harlem becoming the primary destination for many who migrated north.

While the movement was centered in Harlem during the 1920s and 1930s, its influence extended worldwide and remains relevant today.

As an esteemed Onyx Ball invitee, you are cordially invited to embrace the vibrancy, passion, and spirit of rebirth and renewal that characterized the Harlem Renaissance at this evening of celebration.
