TOTAL GR6 IN CLUSTER							<u>1,159</u>	<u>1,105</u>
NEW SCHOOL (SE OF LINC)							278	267
NE SCHOOL (BARTON LOCATION)							324	301
NW SCHOOL (WESTMOUNT LOCATION)							348	324
X SCHOOLS							<u>209</u>	<u>213</u>
							<u>1,159</u>	<u>1,105</u>

Recommendation:

1. establish 2 composite schools N of LINC for all N of LINC students. (Barton & Westmount locations)
2. use Sherwood to hold "NEW" school catchment until building complete.
3. Build "NEW" school on East Mountain.
4. Move Self-paced & Mountain program to Sir Allan MacNab.

Assumptions&Observations:

1. need about 275 Gr9's to achieve a total school of 1200
2. Self-paced program likely pull heaviest from NW, declining as move South and East
3. 3 km radius from Barton & Westmount includes all North feeder schools, except Mountview.

Problems:

1. Barton (OTG=1092) and Westmount (OTG=1134) small.
2. NEW school will be full upon opening. Expect Saltfleet will be full also.
3. Need more info as another new school maybe necessary for SCentral/SWest Mountain.

Self-paced program/Mountain:

Both programs move to Sir Allan MacNab. Although HillPark may have a superior location, condition of school is poorest aesthetically. Consider rebuilding on this site/close MacNab in future.

Transition:

1. Establish boundaries for North schools and move students. Move Mountain/Self-paced.
2. Use Sherwood to house ALL NEW school catchment. Upon completion of new school, move enmasse/close Sherwood.

Transition Problems:

1. All students should only have 1 move at most (plus en masse).
2. Sherwood neighbourhood may be upset attending Barton before Sherwood is closed.
