Dear Parent/Guardian(s):

Good day everyone, my name is Jenny Seto-Vanderlip and I am excited and privileged to join the team at Tiffany Hill's School. On my first day at Tiffany Hills School I was greeted with student made welcome signs, video presentations and letters which just tells me how kind, thoughtful and respectful the students and staff are here at this school. As Principal of Tiffany Hills School, I look forward to leading and supporting the Tiffany Hills community of parents, staff, students and partnerships to support a culture of growth, learning, curiosity and inclusion.

I believe in the importance of teamwork, collaboration and communication. One of my main goals is based on what I value most, which is clear communication with a focus on building relationships with our families, students and staff. This will provide us with the opportunity to nurture a learning environment that maximizes on students' striving to reach their full potential.

I recognize that it will take some time to understand and begin to familiarize myself with all aspects of Tiffany Hill's routines, practices and procedures and appreciate your patience over the next few months. My main focus at this time is on building relationships and establishing clear and consistent rules and routines to ensure a safe and orderly learning environment for all students, especially during these unprecedented and challenging times due to Covid19. This priority will support to build a professional learning environment that values on-going learning for all our staff and students.

I also value a strong home-school connection and recognize that it is vital to your child's success. With this, I strongly encourage regular communication with your child's classroom teacher through the school agenda. Please rely on the agenda as a communication tool that can be effective to share information with your child's teacher.

To support keeping our school open during these challenging times, I remind our students/parents to complete the Covid19 attestation form each and every morning prior to coming to school. Please keep your children home should they fail the attestation and follow the Public Health guidelines. In addition to this, students are reminded to wear a mask, sanitize regularly and social distance at all times (staying 1 metre apart inside the classroom and 2 meters apart in the hallways). Please remind your children to respect these safety protocols at all times. This will help ensure we keep Covid19 out of our school.

I look forward to the day that we can once again meet in person.

Sincerely,

Jenny Seto-Vanderlip
