

Daily COVID-19 Screening Verification Log

Until further notice, at the direction of the Ministry of Education, students will be required to submit confirmation of daily screening each school day. Students who are not able to confirm their daily screening on their own using an electronic device will require assistance from their parent or guardian using this log. Please return this log daily to the school.

The screening tool can be accessed online: <https://covid-19.ontario.ca/school-screening/>
If the screening tool indicates the student may attend school today, please initial below under the correct date.
