

HWDSB

Learning
MATH
Together

As you are our partner in your child's learning, we have put together some math resources to help you support your child.

These resources:

- Highlight student learning in each grade through the Ontario Curriculum
- Show an example of a math lesson in a classroom in Student Learning
- Hear from children about why they are learning math this way in Change in Teaching
- Link to resources for parents to support their child at home in Helping Your Child
- Explain HWDSB's Renewed Math Strategy and how we are supporting students and staff

To view and use these resources, please visit:

www.hwdsb.on.ca/mathhelp

With all of us working together toward shared goals, we can ensure that students make progress each year and graduate prepared to build a strong future for themselves.
