Dear Hamilton parents\guardians,

Routine vaccinations are the most important and effective way to protect against vaccine preventable diseases including measles which continues to spread globally. If you or your family is planning to travel over March break, talk to your healthcare provider to ensure that you are up to date on all recommended routine vaccinations to protect yourself, your family, and your community.

Contact your healthcare provider or a Hamilton Public Health Vaccine Program Nurse at 905- 905-540-5250 to ask about what vaccines are available for you and your family.

Report Vaccinations to Hamilton Public Health

To report your child(ren)'s vaccines, please scan the QR code or call 905-540-5250.

Thank you for keeping our community safe. Have a great March break!
