Transforming Learning Everywhere (TLE) is an ambitious and innovative vision that is transforming how students learn at HWDSB. This vision fosters problem solving, critical literacy and higher-order thinking. Technology supports TLE to prepare students for a changing world.

Our school is among the pilot schools to receive iPad technology this year. By 2019, all schools will have this one-to-one tablet technology.

***As parents, we hope you are informed about TLE and have an opportunity to share feedback.***

This session will cover topics including:

- Supporting children to use devices in a safe manner at home.
- Creating boundaries and rules in the home.
- Fostering a culture of responsibility and citizenship.

Please attend the Parent Session if you have questions.

Child care is available with prior notice to:
