Individual Education Plan (IEP)? Yes No <small>Please include a copy of IEP (if applicable)</small>	Exceptionality: _____

At Sage Quest (SQ), students create and experience a unique and innovative specialized learning program. As a system program, SQ is best suited to students who demonstrate and embrace the following qualities and characteristics:

- Motivated, self-directed learners, capable of working independently, monitoring their progress, and completing work in a timely manner.
- Willing to collaborate with others, academically and socially, and committed to building respectful, authentic classroom relationships.
- Participate positively and cooperatively in all curriculum areas, including visual arts, drama, music, physical education, outdoor education, and science.
- Eager to engage in critical thinking and community action on environmental, global, and local community issues
- Believe in and support the program by attending regularly and punctually, and striving for academic success.

The SQ program is a grades 6,7, 8 classroom in the Hamilton-Wentworth District School Board (HWDSB) program, open to all students who demonstrate strong initiative, interest in global issues, curiosity when asking questions, and enjoy collaborating with others. Students at SQ come from across the city and represent a variety of learners. Like all HWDSB schools, SQ teaches the Ontario Elementary curriculum.

SQ staff will review all *Letters of Intent* to ensure students demonstrate the learning skills that will lead to success in the program. Following this, suitable students will be asked to complete a student application. Please note, decisions are based on the student learning profile and not on academics.

Please submit this form along with the February 2019 report card to Ryerson Middle School by Monday, March 4th, 2018. *Notices without a report card attached will not be considered, *unless the student is homeschooled.*
