September 11th, 2020

Dear Mr. Sokolowski,

VCI CONTROLS has conducted a preliminary check of the HVAC systems at the above-mentioned location. At the time of inspection, and at the completion of the repairs all of the HVAC systems were functioning at manufactures specifications.

Return visit will be completed in the next couple of weeks to clean condensers on Port-A-Pack units for portables. This work is not impacting the ventilation air requirements for the units to function properly.

Regards,

Jeffrey Morneau

National Service Manager
VCI CONTROLS INC.
