

## Student and Parent/Guardian Thoughtexchange October 15 – 21, 2020

The Thoughtexchanges for elementary, secondary and Remote Day School students and parents/guardians included embedded survey questions in which students were asked to read several statements and indicate how true those statements are for them. Parents and guardians were asked to gauge how they think their student should answer the questions. This data will help us understand student and parent/guardian perceptions related to remote learning and feeling safe, supported and accepted.
