

RECORDS AND INFORMATION MANAGEMENT PROCEDURE

RATIONALE:

Hamilton-Wentworth District School Board (HWDSB) manages records and information to meet operational and legislative requirements and for present and future needs. Records of the Board are important strategic assets that must be managed by all employees and Trustees. Comprehensive Records and Information Management (RIM) supports HWDSB's integrity, transparency and accountability as a public organization.

The creation and management of HWDSB records is in accordance with the provisions of the [Education Act](#), the *Municipal Freedom of Information and Protection of Privacy Act* (MFIPPA), the [HWDSB Privacy Policy](#), and other relevant statutes and regulations of the Province of Ontario and the Government of Canada.

HWDSB is committed to the fundamentals and established practices of Records and Information Management to ensure that records and information are consistently accurate, authentic and reliable, that records of operational, fiscal, legal and historical value are identified, maintained and disposed of or preserved in accordance with all relevant legislation, established guidelines or operational needs. The Records and Information Management Procedure serves as a foundation for the HWDSB Records and Information Management Program which supports staff to uphold their duties as employees and fulfill legal and legislative records requirements.

TERMINOLOGY:

Digitization: refers to the action of converting a physical record into a digitized record. This includes the steps involved in the conversion process, such as, preparation, scanning and quality assurance.

Digitized Record: means a record that has been converted from a physical record into a digitized record.

Disposition: refers to the final action carried out on a record once its retention period is complete. The disposition could be secure destruction/deletion, archival review or, for a small segment of records, permanent retention for the lifetime of the Board.

Electronic Records: means records that are captured, generated with and/or used by information technology devices. This includes email, digital images, audio and video files.

Generally Accepted Recordkeeping Principles (GARP): is a widely leveraged global standard consisting of eight (8) core values for records and information management established by the Association of Records Managers and Administrators International (ARMA). These principles are foundational at HWDSB and are reflected throughout this procedure. The eight principles are: accountability, transparency, integrity, protection & security, compliance, availability, retention, and disposition.

RECORDS AND INFORMATION MANAGEMENT PROCEDURE

Legal Hold: refers to a process that an organization uses to preserve all forms of relevant and potentially relevant information when litigation, a government investigation, other investigation, audit, FOI request, or other legal issue or dispute is reasonably anticipated or is underway. During legal hold, applicable retention periods under the HWDSB Records Retention Schedule are suspended and all available records (including official and transitory) must be preserved.

Legislated Records: refers to records created, collected and/or received by the Board that support legislated obligations. This includes records that have a retention period determined by legislation.

Lifecycle of a Record: refers to the span of time from the creation or receipt of the recorded information through to its final disposition. The life cycle includes the following stages: creation or receipt, distribution, use, maintenance and final disposition (destruction/deletion or permanent retention).

Official Record: means any record created, collected and/or received in the course of regular Board business and kept for administrative, legislative or operational purposes that provides evidence of business decisions, actions, and transactions, including the delivery of programs.

Operational Records: refers to records created, collected and/or received by the Board that support Board operations. This includes records with retention periods that are determined by the operational requirements of the Board or the Ministry of Education.

Record: is defined by the Municipal Freedom of Information and Protection of Privacy Act (MFIPPA) as “any record of information however recorded, whether in printed form, on film, by electronic means or otherwise, and includes:

- a) correspondence, a memorandum, a book, a plan, a map, a drawing, a diagram, a pictorial or graphic work, a photograph, a film, a microfilm, a sound recording, a videotape, a machine-readable record, any other documentary material, regardless of physical form or characteristics, and any copy thereof, and
- b) subject to the regulations, any record that is capable of being produced from a machine-readable record under the control of an institution by means of computer hardware and software or any other information storage equipment and technical expertise normally used by the institution.”

Whether a record is created on a Board issued device or a personal device, if it relates to Board business, it is a record of the Board and must be maintained in accordance with the Board’s records retention schedule. All Board records may be subject to Freedom of Information requests.

Records and Information Management (RIM): refers to the systematic control of records throughout their lifecycle.

Record Owner: means the Board staff who have direct responsibility for the management of records in schools or in the administrative and support departments or locations.

RECORDS AND INFORMATION MANAGEMENT PROCEDURE

Retention: means the minimum amount of time required to keep a record as determined to be necessary by law or other authority. Original records cannot be destroyed until the retention time has been met. Likewise, records should not be retained longer than the retention time without a valid reason.

Records Retention Schedule (RRS): refers to a comprehensive list of records series held by the Board, indicating for each record series, a description of the records, the responsible department or location, the length of time the records must be retained, the final disposition once the retention has been met and any relevant legislation related to the retention requirement.

Transitory Records: refers to records that are useful for only a short period of time and are of minor importance. Once they have fulfilled their use, transitory records should be destroyed or deleted. Examples of transitory records include personal messages, general notices and announcements, copies of documents and emails; cc, bcc or FYI emails kept only for convenience; and drafts and working documents used to prepare final records with a few exceptions such as agreements/contracts working documents, or drafts in developing policy.

Vital Record: refers to a record that is fundamental to the functioning of an organization and necessary to continue the operations, without delay, under abnormal conditions.

PROCEDURES:

1.0 General

- 1.1 The Hamilton Wentworth District School Board (HWDSB) will maintain a comprehensive Records and Information Management (RIM) Program. The RIM Program fosters informed decision-making, facilitates accountability, transparency and collaboration, and supports appropriate disclosure of information.
- 1.2 HWDSB complies with applicable laws of Ontario and Canada and HWDSB policies. Personal information, including personal health information, is managed in accordance with the *Municipal Freedom of Information and Protection of Privacy Act* ([MFIPPA](#)), the *Personal Health Information Protection Act* ([PHIPA](#)), all other applicable legislation including any college regulations, and Board policies, particularly Privacy Policy No. 1.6.
- 1.3 Records containing personal information must be kept secure. Access must be limited to only those who require access to the records in order to fulfill their duties. This is a legislative requirement under MFIPPA. HWDSB's Information Technology department maintains industry standard processes as part of the Board's encryption approach for securing electronic records.
- 1.4 The Board will protect records and information management systems from the risk of disaster to ensure the continuity of business operations in the event of any disruption. The term "disaster" refers to a wide range of major and minor disruptions to records, records management and recordkeeping systems.

RECORDS AND INFORMATION MANAGEMENT PROCEDURE

- 1.5 All employees and Trustees are records and information stewards and are tasked with accurately maintaining all Board records and information as required in a retrievable format, for current and future access.
- 1.6 Records and information will be securely maintained for as long as required and disposed of only when all HWDSB's operational, fiscal, legal, regulatory, vital and archival record-keeping obligations are met. These obligations and retention requirements are documented in the HWDSB Records Retention Schedule ([Appendix A](#)). The records retention schedule will be reviewed and revised, as required, based on changes to legislative or operational needs.
- 1.7 Records of archival or historical significance shall be identified and preserved in order to enhance the institutional memory of HWDSB.

2.0 Scope

- 2.1 School boards are mandated to have a records retention schedule based on the school board's needs and compliance requirements.
- 2.2 Systematic records management is fundamental to organizational efficiency. It ensures that the information is:
 - 2.2.1 Collected, maintained, and available for current and future access or retrieval, properly stored and retained, and destroyed on time or preserved according to need;
 - 2.2.2 Utilized to meet current and future needs, and to support change;
 - 2.2.3 Accessible to authorized persons only;
 - 2.2.4 Maintained as evidence of HWDSB functions and activities and supports the delivery of Board programs and services, and Board operating requirements.
- 2.3 The Board will manage records in its custody or within its control, in accordance with statutory and organizational requirements, in order to maintain an authentic and reliable history of its actions, transactions, and decisions. This includes:
 - 2.3.1 Records and information obtained, created, and maintained within all departments and locations of the Board and including records of the Board of Trustees;
 - 2.3.2 All third-party contractors, service providers or agents who collect, process, or store records and information on behalf of the Board.
- 2.4 Statutory obligations throughout the lifecycle of the records require that records are:

RECORDS AND INFORMATION MANAGEMENT PROCEDURE

- 2.4.1 Retained according to the records retention schedule with the exception of any hold on records, including a designated legal hold;
- 2.4.2 Not destroyed or deleted before the defined retention has been met;
- 2.4.3 Authentic and reliable evidence of the activities of the Board;
- 2.4.4 Accessible, and available, as appropriate;
- 2.4.5 Maintained in a manner that ensures timely, efficient, and accurate retrieval by the Board as required;
- 2.4.6 Disclosed when requested, where not exempt according to MFIPPA;
- 2.4.7 Preserved and not intentionally deleted when required as evidence or for pending or future litigation;
- 2.4.8 Secured and protected from unauthorized disclosure.

It is an offence under Section 48.1 of MFIPPA to disclose personal information in contravention of MFIPPA, and to willfully destroy, delete or alter records to prevent access before the records retention has been met.

- 2.5 Records can be in any format: paper, video, audio, microfilm, and electronic (including email, digital media, websites, electronic document management systems, etc.).
- 2.6 Electronic records stored in digital repositories (e.g., network drives, cloud storage, electronic document management systems) are to be retained in a readable format for the length of their required retention, as per the HWDSB Retention Schedule. This includes all business applications and information technology systems used to create, store and manage records and information, including email, database applications and websites.
- 2.7 Business continuity planning and contingency measures are required to ensure that records vital to the continued functioning of HWDSB are identified as part of risk analysis, that they are protected and recoverable when needed. The Information Technology department maintains an internal Disaster Recovery Plan and Continuous Data Protection as part of HWDSB's approach to the back-up of data and network applications.

3.0 Responsibilities

Records and information management is a shared responsibility. All records created by employees and Trustees in the course of their duties are HWDSB records. Our records management responsibilities start at the time of record creation or acquisition, and continue through the lifecycle of the record, from access to storage to final disposition.

RECORDS AND INFORMATION MANAGEMENT PROCEDURE

The HWDSB Records Retention Schedule defines how we classify our records and it specifies how long we need to keep each classification of records. The schedule also describes what we do with the records at the end of their lifecycle if they are not permanent records (destroy/delete or review for possible transfer to the HWDSB Archives). The schedule applies to all records, regardless of format.

Organization Responsibilities

- 3.1 Each department, school and the Board of Trustees must support the RIM Program by ensuring that the RIM Procedure is applied, and must also:
 - 3.1.1 Manage all records and information regardless of format (paper, electronic including email, audio, videotapes, etc.) according to applicable federal and Ontario laws, and school board policies and procedures.
 - 3.1.2 Ensure that appropriate access and security rules are in place to protect both paper and electronic records as required.
 - 3.1.3 Ensure that records containing sensitive or personal information are only accessible to those who require access to the information in order to perform their duties.
 - 3.1.4 Manage electronic records and information stored in digital repositories (e.g. network drives, cloud storage, electronic document management systems) to retain a readable format for the length of their required retention, as per the HWDSB Records Retention Schedule.
 - 3.1.5 Maintain an inventory of active and inactive records stored in the department or at the school site that includes a description of the records, the record owner, location of the records, date range, record format, retention period and the volume of records (e.g., number of boxes), to facilitate the management of these records.
 - 3.1.6 Maintain all records and information according to the HWDSB Records Retention Schedule.
 - 3.1.7 Advise the Privacy and Information Management Officer of any retention schedule changes required to align with current legislation or operational needs.
 - 3.1.8 Securely dispose of records in accordance with the HWDSB Records Retention Schedule and the Records Destruction Process set out in [Appendix B](#);
 - 3.1.9 Document and maintain an inventory of records destroyed in accordance with the HWDSB Records Retention Schedule.
 - 3.1.10 Maintain an inventory of records transferred to secure offsite storage to facilitate future retrievability and support the Board's ability to manage the records in accordance with the HWDSB Records Retention Schedule.
 - 3.1.11 Follow the Digitization Steps set out in [Appendix D](#) if replacing a physical record with a Digitized Record, to ensure that it meets the nationally recognized

RECORDS AND INFORMATION MANAGEMENT PROCEDURE

Electronic Records as Documentary Evidence Standard to serve as an Official Record of the Board.

- 3.1.12 Require that all third-party organizations, contractors, or agents of the Board that receive or collect information on behalf of the Board are aware of and comply with this Procedure

Employee and Trustee Responsibilities

- 3.2 All employees and Trustees who create, collect and use records and information on behalf of the Board, must comply with this procedure and any statutory requirements. Employees and Trustees are required to:
 - 3.2.1 Manage records and information according to the records management best practices defined in this procedure and the *Generally Accepted Recordkeeping Principles (GARP)*, and retain according to the HWDSB Records Retention Schedule.
 - 3.2.2 At the end of employment, term or contract with the Board, HWDSB records and information must remain with the Board. This means that HWDSB records must be transferred to the employee's supervisor/manager/Principal or Superintendent, as applicable, or the Secretary-Treasurer of the Board to ensure operational continuity and fulfillment of retention requirements.
 - 3.2.3 Utilize available privacy, access, and security measures to protect the confidentiality and sensitivity of records, as appropriate. Records must be protected from unauthorized use or release and from loss or damage.
 - 3.2.4 Electronic records may only be stored on authorized HWDSB network accounts and applications. They should never be stored on, transferred or copied to personal devices or personal accounts such as email, cloud drives (e.g., Google Drive, Dropbox, iCloud) or USB devices.
- 3.3 Employees and schools are responsible for the management of records created and/or used at the school, including but not limited to office records, student records, and teaching resources. Each school must have a secure storage area for managing paper records until the retention period has expired and destruction has been arranged, or the records have been transferred to offsite storage.

The Privacy and Information Management Officer Responsibilities

The Director of Education oversees the Records and Information Management Program and delegates responsibility to the Privacy and Information Management Officer.

The direct Supervisor of the Privacy and Information Management Officer provides support and assistance as required.

RECORDS AND INFORMATION MANAGEMENT PROCEDURE

- 3.4 The Privacy and Information Management Officer:
 - 3.4.1 Coordinates the HWDSB Records and Information Management (RIM) Program; maintains a current records retention schedule.
 - 3.4.2 Conducts records inventories at Board locations to ensure that all records are appropriately captured within the HWDSB Records Retention Schedule.
 - 3.4.3 Consults with employees and Trustees on records management best practices.
 - 3.4.4 Provides training and related documentation to assist Board employees and Trustees in understanding their records management responsibilities and obligations.
 - 3.4.5 Assists employees and Trustees with implementing retention requirements for their paper records systems and electronic platforms (e.g., Laserfiche, PowerSchool, Outlook).
 - 3.4.6 Responds to and advises on any records management related inquiries.
 - 3.4.7 Implements changes to the retention schedule in consultation with staff responsible for the records.
 - 3.4.8 Liaises with IT to address implementation of records and information management requirements for electronic records and information stored in digital repositories.
 - 3.4.9 Liaises with HWDSB Archives when relevant records are identified for transfer to archival storage.
 - 3.4.10 Makes updates to the HWDSB RIM Program and strategies as required and works with employees to implement any changes with the approval and support of Executive Council.

| Extended Day Administration Current year information which includes program planning and participant information such as attendance, demographics, emergency contact information, confirmation of extended day funding, extended day binder report, extended day binders and vacation tracker. | Schools | CY + 1 year | Destroy | PIB <u>Municipal Freedom of Information and Protection of Privacy Act</u> |

RECORDS AND INFORMATION MANAGEMENT PROCEDURE

Retention Schedule Terms

Archival Review

Refers to reviewing the records series before destruction to determine if the records have historical significance that would merit a transfer to the HWDSB Educational Archives.

CY (Current School Year)

Refers to September 1st to August 31st.

FY (Fiscal Year)

Refers to September 1st to August 31st.

Destroy

The record is destroyed (shredded, deleted/expunged) once the retention period has been met.

S (Superseded)

Refers to the replacement of a record once it has been updated or revised. The new record supersedes the previous version. If the superseded record contains personal information, MFIPPA requires that we retain it for 1 year after last use.

E (Event)

The trigger for disposition. The event is what needs to occur to start the retention period.

PIB (Personal Information Bank)

Refers to records that contain personal and identifiable information. This information is protected under the Municipal Freedom of Information and Protection of Privacy Act (MFIPPA).

RECORDS AND INFORMATION MANAGEMENT PROCEDURE

APPENDIX B: Records Destruction Process

1. Confirm that the records identified for destruction have met the required retention period as set out in the HWDSB Records Retention Schedule and that they are not subject to any existing Legal Hold.
2. Complete the Records Destruction Authorization Form ([Appendix C](#)) with the details of the records eligible for destruction.
3. Submit the completed form to the Record Owner (Senior Manager or School Administrator) for approval and sign-off.
4. Scan a copy of the signed Records Destruction Authorization Form to the Privacy and Information Management Officer at privacy@hwdsb.on.ca
5. The Privacy and Information Management Officer will review and if requirements are met, will advise the sender to proceed with the destruction process as follows:
 - for onsite records, dispose of the records in the secure shredding bin at your location.
 - for larger volumes of onsite records, contact the Board's document storage and shredding provider to attend your location for onsite destruction.
 - if the records are stored offsite with our service provider, coordinate with the service provider to pull the boxes authorized for destruction and have them securely shredded.
 - If the boxes at offsite storage need to be reviewed to confirm contents, a room is available onsite at the service provider's storage facility. If this is required, please contact the service provider directly to inquire about availability and to reserve use of the space.
 - For electronic records, please see the note below.
6. Request the certificate(s) of destruction from the service provider and forward, along with the signed Records Destruction Authorization Form(s), to the Privacy and Information Management Officer for long-term retention.

Note: Electronic Records

The retention of electronic records and data residing in HWDSB platforms and applications may be centrally managed, either through a manual or scheduled annual deletion/destruction process, coordinated by the system administrator, and with the authorization of the Record Owner and confirmation from the Privacy and Information Management Officer that requirements are met.

RECORDS AND INFORMATION MANAGEMENT PROCEDURE

For platforms and applications that are not managed centrally, staff will be provided with specific instructions on how to delete any records that have reached their retention, or for transitory records, are no longer needed.

Record Owners are expected to review these records on an annual basis and manage the records in accordance with the HWDSB Records Retention Schedule and Records Destruction Process. A confirmation of destruction shall be forwarded to the Privacy and Information Management Officer.

APPENDIX C: Records Destruction Authorization Form

| Record Series | Department or School | Description | Retention Period | Date Range of Records |
|---------------|----------------------|-------------|------------------|-----------------------|
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |

I confirm that the above records are eligible for destruction.

RECORDS AND INFORMATION MANAGEMENT PROCEDURE

APPENDIX D: Digitization of Physical Records

Digitization projects are often undertaken for one of the following reasons:

- Reduce the costs associated with storage.
- Minimize the resources required to manage the records.
- Reduce the time required to locate or retrieve the records.
- Increase efficiency and improve access, search and retrieval of the records.
- Preserve long-term or fragile records by providing access to a digital copy.
- Provide access to records via a digital platform or website.

With digitization projects, staff need to consider which approach is most appropriate for the scope and outcome of the project.

1. Convenience Digitization is the digitization of the physical record for convenience purposes only to facilitate sharing and access while maintaining the physical record as the Official Record.
2. Official Record Digitization is the process of digitizing the physical record for the purpose of replacing it with the digitized record as the official, authoritative record.

Official Record Digitization requires that a consistent process is followed, with quality assurance checks embedded in the process, to ensure that the digitized records are sufficiently authentic, trustworthy and reliable to serve as the official HWDSB records.

When physical records are converted to digital form, HWDSB must be able to demonstrate that the digitized records are a reliable substitute for the original document. Digitized records must meet the criteria of the Canadian General Standards Board, Standard 72.34-2017, Electronic Records as Documentary Evidence to ensure that they are able to serve as the authentic records, and hold up as evidence in a court of law, if required.

In order to meet the national standard, staff must follow the digitization process steps set out below. The steps do not apply to Convenience Digitization however, it is recommended that the records meet the same quality standards.

Digitization Process Steps

1. Consultation

The first step in the process requires a review of the HWDSB Records Retention Schedule record series relevant to the proposed project, in consultation with the Privacy and Information Management Officer.

RECORDS AND INFORMATION MANAGEMENT PROCEDURE

The review will establish:

- If any of the physical records must be retained in their original format due to their historical significance or other value;
- The appropriate disposition of the physical records after digitization; and,
- How the physical records and digitized records will be managed before they are disposed of, transferred to long-term storage or transferred to the HWDSB Archives.

The following should also be evaluated when considering a digitization project:

- Assess the value of digital conversion (e.g. frequency of access, searchability, access required by multiple teams or sites, etc.).
- Assess if digitization can be completed in house (e.g. small volume of records, digitized on an ongoing basis), or if outsourcing required (e.g. large, backfile conversion project or technology and resources not available in house).
- If outsourcing is considered, staff must follow the established Purchasing process, which includes a privacy and security review, when selecting service providers. Staff must also consult with Information Technology Services to ensure that the file conversion will be compatible with HWDSB systems and that the scanned files will meet the security standards for ingestion into HWDSB applications.
- Official records must be readable and accessible for the duration of their lifecycle, as defined in the HWDSB Records Retention Schedule. This means that the records must be migrated through any hardware and software changes to ensure their continued readability and accessibility.

A Digitization Plan ([Appendix E](#)) should be completed and approved before proceeding with a digitization project.

2. Preparation

The physical records should be prepared and organized before starting the digitization process. This will contribute to a more efficient process and it will increase the quality of the digitized records.

Sort records:

- a. disassemble attached or stapled documents
- b. fix torn documents or use plastic sleeves to protect damaged documents
- c. make photocopies to improve quality or to resize documents

When deciding on the best method of capture for digitizing, the following physical record qualities should be taken into consideration:

- paper density or type of paper (e.g. card stock, parchment, printer paper, etc.)
- size (e.g. a large scanner may be needed for oversized documents)
- condition (e.g. stapled, brittle, creased, rolled, etc.)

RECORDS AND INFORMATION MANAGEMENT PROCEDURE

- orientation (e.g. requires rotation of documents)
- unique finishes (e.g. transparent, semi-transparent or opaque)
- colour (e.g. quality of colour capture, file size, etc.)
- binding (e.g. staples, paper clips, fasteners, spiral binding, etc.)
- post-it notes (should be separated from documents and scanned as the next page immediately after the document it was attached to)
- embossing (e.g. seals)

Note: Some documents, such as notarized documents, have embossed, imprinted or raised seals. A specialized scanner and/or camera that allows angled or one-directional lighting to capture the embossed information may be required for the digitization process. This type of capture requires advice and assistance.

3. Digitization

Scanners and/or cameras are used to digitize records. Scanner settings should be set before starting the process. Quality control checks should take place throughout the process and after digitization is completed. This should be tracked in the Digitization Log ([Appendix F](#)).

4. Quality Control

Quality control is an important step to ensure that the digitized record mirrors the physical record. Errors can occur during digitization due to the poor quality of the physical records, scanner mis-feeds or technical malfunctions. Staff should be aware of potential errors and address them as they occur, which may require re-digitizing affected records, and repeating the process until no errors are detected. If digitizing large volumes of records, ensure that regular quality assurance batch checks occur throughout the digitization process and that the process is documented.

5) Quality Assurance Review

Once the records have been digitized, a review is required to confirm that the records are a reliable substitute for the hard copy records. Departments/Schools should consult with the Privacy and Information Management Officer at this stage. The review must take place before the physical records can be authorized for destruction.

APPENDIX E: Digitization Plan

Department/School: _____

| Project Summary | |
|--|--------------|
| Description of records to be digitized: | |
| File format (e.g. PDF): | |
| Storage location for digitized records: | |
| Volume of physical records to be digitized: | |
| Business reason for digitization: | |
| Will this be routine/ongoing digitization or is this a backfile conversion project? | |
| Digitization Details (to be completed in consultation with the Privacy and Information Management Officer) | |
| Metadata elements: | |
| Access/Privacy concerns: | |
| Do the records contain personal information? | Yes___ No___ |
| If yes, what types of personal information do the records contain? (e.g. names, birthdates, OENs, etc.) | |
| Is outsourcing being considered for the digitization project? | Yes___ No___ |
| If yes, what is the reasoning for outsourcing? (e.g. volume, resources) | |

Approval

Digitization Plans must be approved by department Senior Manager/School Administrator and Associate Director/Superintendent before proceeding. Any associated costs must be approved through the appropriate Budget and Purchasing approval process.

Approved by: _____

APPENDIX F: Digitization Log

Department/School:

Date:

Description of Digitized Records:

| Quality Control Element | Comments |
|--|------------------|
| Number of pages of the digitized records | Number of pages: |
| Number of pages of the digitized records matches the number of pages of the physical records. Note: Be aware of blank pages in the physical record and/or digitized record that may count as a page. | Yes ____ No ____ |
| Images are in the correct order | Yes ____ No ____ |
| Page alignment is correct e.g. physical record orientation (portrait/landscape), rotation, image skew, proportions/distortion, and cropping | Yes ____ No ____ |
| Documents are complete and the detail is accurate (e.g. text clarity, sufficient capture of detail) | Yes ____ No ____ |
| Colour is accurately captured in the digitized record | Yes ____ No ____ |
| If compressing a digitized record, is the quality sufficient? | Yes ____ No ____ |
| Scanner generated speckle present? (e.g. speckle not on the physical record) | Yes ____ No ____ |
| Digitized record file information/naming convention is complete and accurate | Yes ____ No ____ |
| Overall digitized record quality: e.g. lack of sharpness, inconsistent sharpness, banding, evenness of tonal values and illumination. | |
