

MISH, MASH, SCIENCE BASH!

THURSDAYS FROM 3:40PM – 4:40 PM
HELD AT ROUSSEAU ELEMENTARY SCHOOL FOR EIGHT WEEKS
FEBRUARY 8TH – APRIL 4TH
(SKIPPING MARCH BREAK)

"I think what you offer is amazing. We've signed up for a lot of your programs and the kids are never bored. Always excited about Mad Science day. But the best will always be watching them talk and play science. What a gift to be able to ignite science in little minds. Thank you for all that you do."

- H.D., November 2023

REGISTER BEFORE JANUARY 31ST, 2024 AND RECEIVE \$10.00 OFF

Registration Information

Policies: By registering your child, you acknowledge that you have read and agree to the policies found on our website.

Reminder: Announcements will be made at the beginning of each class to remind all registered children to attend the Mad Science program. We suggest to write a reminder in your child's daily planner to let their classroom teacher know your child is registered.

Program Cost: \$150 + HST Register by Wednesday, January 31, 2024 and receive \$10.00 off

Payment Information: All Major Credit Cards Accepted. Please call the Mad Science office if you prefer a different method of payment.

Questions: Please direct all questions to the Mad Science office rather than your school office.

Behaviour Expectations: We are committed to offering a quality program for every child registered in Mad Science. Your child should be able to interact safely and appropriately with the Presenter, the other children in the class, and the equipment in both group and individual activities. While we make every effort to assist each child in having a great experience, children who display behaviour not within these guidelines may be withdrawn.

Program Details: This fun, safe and interactive course is suitable for grade 1-6 students. Your children will be working with our professional, trained Presenters. Each class is filled with dynamic demonstrations, tons of hands-on activities and weekly take-homes! If the program is happening during lunch or nutrition break, your child will eat during the first part of class.

The 8 Awesome Topics For This Session Are:

SONIC SOUNDS Can you hear me now? Ride a sound wave through solids, liquids and gases to new-found knowledge on the properties of sound!

SLIME TIME Join in the fun with an investigation of everyone's favourite Mad Science experiment...SLIME! Hands-on experience at its slipperiest!

LIGHTS, COLOUR, ACTION! No, you're not in Hollywood! You're in Sir Isaac Newton's lab! Uncover the hidden components of colour and light!

OPTICAL ILLUSIONS Seeing isn't always believing but believe us when we say you'll love this exploration of optics, reflection and sight.

FUN-DAMENTAL FORCES May the forces be with you as you explore gravity, inertia and the other forces at play in our world.

SUPER STICKY STUFF Stick it to the walls, and push the power of tape to the limits in this adhesive class on things that cling!

HARNESSING HEAT Get up and dance like a molecule in this hot exploration on the properties of heat! You'll soon warm up!

ENERGY BURST Kinetic or potential? Find out which type of energy powers you, your world and lots of cool toys!
