

"Computers, Magnets and Machine Learning: Taking Pictures of Your Brain", by Dr. Michael Noseworthy

Sat. September 23, 2023

11:00AM to 12:00PM

1280 Main St W, Hamilton, ON
Hamilton Health Science, Rm. 1A1

FREE

Ages 7-14 (Whole Family Welcome)

The lecture will be followed by a hands-on activity with Lets Talk Science.

How can we use advanced computers and magnets to take pictures of your brain while you are comfortably laying down ? Magnetic resonance imaging (MRI) machines use powerful computers and newer machine learning methods to do just that! It may seem like magic but in Dr. Noseworthy's presentation, he will show you the secrets behind how this can all happen.
