#### Reports from Trustee Special Committees

##### 3. Governance – March 6, 2018

Chair White shared the Governance report with Trustees stating that under Ontario Regulation 412/00 of the Education Act (O.Reg.412/00), school boards are responsible for trustee determination and distribution calculations (D&D calculations).

Staff presented four scenarios to the Governance Committee that illustrated different ward couplings in order to have 11 Trustees represent 15 Wards within the City of Hamilton. The criteria used for creating each scenario was as follows:

1. Each Trustee has 1 secondary school (but no more than 2 secondary schools) in their ward/ward coupling
2. The electoral quotient is as close to a whole number as possible, without going over 1.6
3. The ward coupling is geographically connected
4. There are no more than 1 trustee per ward/ward coupling
5. There are no more than 2 wards coupled together

After reviewing all four scenarios, the Governance committee recommended consultation on a preferred option and two alternate options.

Trustees discussed the proposed options at length including:

- That HWDSB does not have enough public school board electors to warrant an additional trustee on the Board.
- The consultation plan include the full 15 ward map with the location of the current school locations.
- That the general public will not be required to use the five criteria listed above when completing the survey.

An amendment to remove alternate option 2 was brought forward by Trustee Beattie and seconded by Trustee Hicks.

This amendment was **DEFEATED** on the following division of votes:

In Favour: (4) Trustees Beattie, Hicks, Mulholland and White

Opposed: (4) Trustees Bingham, Van Geffen, Danko and Deathe

To the original motion:

**RESOLUTION #18-32:** Trustee Van Geffen, seconded by Trustee Bingham, moved: **That the Governance Report consultation begin no later than March 19, 2018, ending March 31, 2018 on the preferred option and on alternate option 1 and alternate option 2 for trustee distribution.**

**CARRIED UNANIMOUSLY**

**RESOLUTION #18-33:** Trustee Beattie, seconded by Trustee Hicks, moved: **That HWDSB have a centralized public information session to be held at the Education Centre.**

The motion **CARRIED** on the following division of votes.

In Favour: (7) Trustees Beattie, Bingham, Danko, Deathe, Hicks, Van Geffen and White

Opposed: (1) Trustee Mulholland

The meeting adjourned at 7:10 p.m.

### MONITORING ITEMS:

#### A. POLICY REVIEW

Staff presented proposed changes to the five policies scheduled for review, and discussions were held around the changes. Policies reviewed were:

- Policy 4.1 Accommodation of staff;
- Policy 4.3 Occupational Health and Safety – Discussions in regards to the monthly Central Joint Health and Safety meetings and how issues are monitored. Trustees requested information to be brought back to the committee to provide further information on what any major issues are that have come up over the course of the year, what strategies were used and if they were successful;
- Policy 4.6 Recruitment and Selection;
- Policy 4.8 Staff Progressive Discipline – Trustees inquired as to what the feedback mechanisms are that staff uses, and were told it is the staff voice survey. Staff will add a bullet to include that we know the feedback is coming back through the staff voice survey; and
- Policy 4.9 Workplace Violence and Harassment Prevention – Trustees inquired if feedback was received from unions and federations in regard to changes proposed to this policy. Feedback was received very recently and will be consolidated into this policy for the Policy Committee Meeting in May.

Trustees were all in support with the proposed changes which will go to the Policy Committee Meeting in May.

#### B. EMPLOYEE INCIDENT REPORTING

Staff presented the report noting that while there has been an increase for 2016/17 year, it was mostly in the category of “No Injury”. Employees can file an incident report at any time that they feel there has been a violent incident against them, however, the severity of the incident varies greatly. Staff accept all reports without judgement or determination of what consists of a violent incident. There has been further training and information provided to Admin on how to report, the steps required, and the importance to submit in a timely manner which could also be a reason for further increase in numbers. This item is discussed at monthly Joint Health and Safety meetings as ongoing monitoring on strategies in place and to evaluate and provide further support to schools that may be experiencing high level of incidents. Trustees requested a further breakdown by employee group on the incidents reported. Staff will provide further data through a monitoring report at the May Human Resources Committee Meeting.

Respectfully submitted,  
Penny Deathe, Chair of the Committee

**ACTION ITEMS:****A. Rural School Funding:**

The Ministry released a 2017:B09 "Plan to Strengthen Rural and Northern Education on June 28<sup>th</sup>, 2017. As a result, HWDSB has received an additional funding of \$40,087 to be used for rural education, and it will be publically reported on how this funding will be used.

Upon consultation with their respective school council members, the following recommendations were moved unanimously by the Rural Schools Community Advisory Committee, to be forwarded to the Board of Trustees for their final approval:

**RECOMMEND:** That this additional funding be distributed equitably amongst the identified Rural Schools (*see attachment*) that would be beneficial in addressing and supporting the following rural school challenges:

- a) **Transportation:** supporting school excursions and extra-curricular programs outside of rural areas; late buses
- b) **Outdoor play:** equipment; line drawing/painting activities on playground; natural playgrounds; shade trees; etc.
- c) **That funds be transferred to HWDSB school accounts and spent before the end of the 2017-2018 school year.**

**Carried Unanimously.**

**INFORMATION ITEMS:****A. Updates: Water, Transportation, Facilities/Accommodations:****Water:**

Superintendent Michael Prendergast has been in consultation with our Health & Safety and Facilities Department in regards to the water quality. Currently, Beverly Central and Tapleystown continue to have outstanding issues:

- Beverly Central's initial test was slightly below the provincial limit but the Board, as a precaution treated it as if it exceeded. Work was done to further reduce the lead levels from there. The last results show the lead levels at 9 ug/L for the standing water sample and 7.3 ug/L for the flushed sample where the limit is 10 ug/L. The Board is keeping this fountain out-of-service as a precaution and will continue their work on dropping these levels further.
- Tapleystown has had a water fountain replaced with a hydration station. The lead levels for this fixture have not dropped to a satisfactory level and we are continuing with additional strategies at the school.
- Spencer Valley and Dr. J. Seaton are provided bottled water because of elevated sodium levels.

**Transportation:**

Transportation has shown improvements in some areas. However, the driver shortages are being experienced throughout the province, resulting in the following challenges:

- Multiple bus runs due to lack of drivers (including absenteeism: illness, holiday) are causing increased wait times.
- Bus operator's office staff are driving buses if needed, effecting late bus notifications that are not being posted correctly or in a timely manner thus creating frustration to schools and families.
- Special needs buses, service students outside of their catchment, making it very challenging to stay within the Board policy ride times. Currently we are within timelines of maximum of 60 minutes.
- Our Board continues to monitor our schools for weekly late bus reports; HWSTS are persistent in making our carriers accountable and responsible for posting late bus information to our parents.
- HWDSB, HWSTS, and Trustees are collaborating with other school boards, and attending Ministry forums to problem solve and share initiatives as a means to support each other until there's a sustainable bus driver work force.
- Currently the Board is investigating alternatives for next year, by determining available seat space and reviewing bell times that impact upon the way the bus routes are run. This would enable HWSTS to combine routes to reduce the number of buses and drivers needed, to increase efficiency and benefit the environment.

**Facilities/Accommodations:**

The Board has received major funding announcements from the Ministry, permitting our new school builds to move forward. Our Facilities Department continues to work on construction projects in order to meet Ministry benchmarks, and updates are available on HWDSB school websites.

**Spencer Valley/Greenville new school:** The Board is working towards a spring construction target to begin the work, dependent on regulatory approvals outside of our control. Currently, the Board is waiting for drainage and irrigation approvals and tenders. There is signage at the Greenville construction site.

**Beverly Central/Dr. J. Seaton new school:** The Board is working towards a spring construction target to begin the work, dependent on regulatory approvals outside of our control. The Ministry of Transportation has granted approvals to widen the highway. There is signage at the Beverly community construction site. A Public Information Session at the Beverly Community Centre has been scheduled on March 21<sup>st</sup> (7:00 pm -8:00 pm) to provide an opportunity to strengthen our partnership with the City of Hamilton, view the architectural plans, inform the community and allow an opportunity to ask questions.

**CH Bray:** Funding approval for a new school has been granted by the Ministry.

**Summit Park:** The Ministry has provided funding, and the Board is currently waiting for site plan approvals. The target for building completion is 2019, however this is dependent on regulatory approvals outside of the Board's control.

**Other Business:**

Members of the Committee unanimously agreed that they have satisfied the requirements of the meeting threshold for the 2017-18 academic school year, and have concluded that another meeting is not required as there is no further action needed by the committee at this time.

Respectively submitted,  
Amanda Fehrman, Committee Chair
